JUST WALKED THE KOKODA TRACK?

Help us help the descendents of the Fuzzy Wuzzy Angels of Papua New Guinea

PNG is currently ranked as the lowest Pacific nation on the United Nation's Human Development Index. Only African nations fall beneath PNG. Our nearest neighbour is struggling to meet the most basic health and education needs of its most vulnerable people – the children of PNG.

The Kokoda Track Foundation has been working in the communities along and around the Kokoda Track since 2003. With help from our supporters, this year we are providing 124 children with education scholarships who otherwise would not be able to attend school. We support 23 schools across the Central and Oro Provinces with essential resources for their teachers, classrooms, and students. We are assisting local high school graduates to become nurses, community health workers, and teachers so that they can return and work in their home communities. We have built three mother nurseries and multiple satellite nurseries in the cyclone ravaged Oro province that are helping desperate villagers restart their food gardens. And we are helping the Kokoda Memorial hospital and health centres along the Track with basic supplies of in-date and relevant drugs and medical equipment desperately needed to keep their communities safe and healthy.

The work of the Foundation is not possible without the generous support of our members and donors. Walking the Kokoda Track is an amazing experience, and most trekkers agree that it wouldn't be possible without the selfless dedication of today's Fuzzy Wuzzy Angels. Please help us to support the communities of the Kokoda Track by becoming a member today.
